
Statement Concerning Your Employment in a Job Not Covered by Social Security

Employee Name _____ **Employee ID#** _____

Employer Name NEW CASTLE COUNTY **Employer ID#** 51-60000160

Your earnings from this job are not covered under Social Security. When you retire, or if you become disabled, you may receive a pension based on earnings from this job. If you do, and you are also entitled to a benefit from Social Security based on either your own work or the work of your husband or wife, or former husband or wife, your pension may affect the amount of the Social Security benefit you receive. Your Medicare benefits, however, will not be affected. Under the Social Security law, there are two ways your Social Security benefit amount may be affected.

Windfall Elimination Provision

Under the Windfall Elimination Provision, your Social Security retirement or disability benefit is figured using a modified formula when you are also entitled to a pension from a job where you did not pay Social Security tax. As a result, you will receive a lower Social Security benefit than if you were not entitled to a pension from this job. For example, if you are age 62 in 2013, the maximum monthly reduction in your Social Security benefit as a result of this provision is \$395.50. This amount is updated annually. This provision reduces, but does not totally eliminate, your Social Security benefit. For additional information, please refer to Social Security Publication, "Windfall Elimination Provision."

Government Pension Offset Provision

Under the Government Pension Offset Provision, any Social Security spouse or widow(er) benefit to which you become entitled will be offset if you also receive a Federal, State or local government pension based on work where you did not pay Social Security tax. The offset reduces the amount of your Social Security spouse or widow(er) benefit by two-thirds of the amount of your pension.

For example, if you get a monthly pension of \$600 based on earnings that are not covered under Social Security, two-thirds of that amount, \$400, is used to offset your Social Security spouse or widow(er) benefit. If you are eligible for a \$500 widow(er) benefit, you will receive \$100 per month from Social Security (\$500 - \$400=\$100). Even if your pension is high enough to totally offset your spouse or widow(er) Social Security benefit, you are still eligible for Medicare at age 65. For additional information, please refer to Social Security Publication, "Government Pension Offset."

For More Information

Social Security publications and additional information, including information about exceptions to each provision, are available at www.socialsecurity.gov. You may also call toll free 1-800-772-1213, or for the deaf or hard of hearing call the TTY number 1-800-325-0778, or contact your local Social Security office.

I certify that I have received Form SSA-1945 that contains information about the possible effects of the Windfall Elimination Provision and the Government Pension Offset Provision on my potential future Social Security Benefits.

Signature of Employee _____ **Date** _____

Information about Social Security Form SSA-1945 Statement Concerning Your Employment in a Job Not Covered by Social Security

New legislation [Section 419(c) of Public Law 108-203, the Social Security Protection Act of 2004] requires State and local government employers to provide a statement to employees hired January 1, 2005 or later in a job not covered under Social Security. The statement explains how a pension from that job could affect future Social Security benefits to which they may become entitled.

Form SSA-1945, **Statement Concerning Your Employment in a Job Not Covered by Social Security**, is the document that employers should use to meet the requirements of the law. The SSA-1945 explains the potential effects of two provisions in the Social Security law for workers who also receive a pension based on their work in a job not covered by Social Security. The Windfall Elimination Provision can affect the amount of a worker's Social Security retirement or disability benefit. The Government Pension Offset Provision can affect a Social Security benefit received as a spouse, surviving spouse, or an ex-spouse.

Employers must:

- Give the statement to the employee prior to the start of employment;
- Get the employee's signature on the form; and
- Submit a copy of the signed form to the pension paying agency.

Social Security will not be setting any additional guidelines for the use of this form.

Copies of the SSA-1945 are available online at the Social Security website, www.socialsecurity.gov/online/ssa-1945.pdf. Paper copies can be requested by email at ofsm.oswm.rqct.orders@ssa.gov or by fax at 410-965-2037. The request must include the name, complete address and telephone number of the employer. Forms will not be sent to a post office box. Also, if appropriate, include the name of the person to whom the forms are to be delivered. The forms are available in packages of 25. Please refer to Inventory Control Number (ICN) 276950 when ordering.

Windfall Elimination Provision

Your Social Security retirement or disability benefits can be reduced

The Windfall Elimination Provision can affect how we calculate your retirement or disability benefit. If you work for an employer who doesn't withhold Social Security taxes from your salary, any retirement or disability pension you get from that work can reduce your Social Security benefits. Such an employer may be a government agency or an employer in another country.

When your benefits can be affected

This provision can affect you if both the following are true:

- You earn a retirement or disability pension from an employer who didn't withhold Social Security taxes.
- You qualify for Social Security retirement or disability benefits from work in other jobs for which you did pay taxes.

The Windfall Elimination Provision can apply if one of the following is true:

- You reached age 62 after 1985.
- You developed a qualifying disability after 1985.

If the latter applies, you must first have become eligible for a monthly pension based on work where you didn't pay Social Security taxes after 1985. This rule applies even if you're still working.

This provision also affects Social Security benefits for people who performed federal service under the Civil Service Retirement System (CSRS) after 1956. We won't reduce your Social Security benefit amount if you only performed federal service under a system such as the Federal Employees' Retirement System (FERS). Social Security taxes are withheld for workers under FERS.

How it works

Social Security benefits are intended to replace only some of a worker's pre-retirement earnings.

We base your Social Security benefit on your average monthly earnings adjusted for average wage growth. We separate your average earnings into three amounts and multiply the amounts using three factors to compute your full Primary Insurance Amount (PIA). For example, for a worker who turns 62 in 2022, the first \$1,024 of average monthly earnings is multiplied by 90%;

earnings between \$1,024 and \$6,172 are multiplied by 32%; and the balance by 15%. The sum of the three amounts equals the PIA, which is then decreased or increased depending on whether the worker starts benefits before or after full retirement age (FRA). This formula produces the monthly payment amount.

When we apply this formula, the percentage of career average earnings paid to lower-paid workers is greater than higher-paid workers. For example, workers age 62 in 2022, with average earnings of \$3,000 per month could receive a benefit at FRA of \$1,553 (approximately 51%) of their pre-retirement earnings increased by applicable cost of living adjustments (COLAs). For a worker with average earnings of \$8,000 per month, the benefit starting at FRA could be \$2,843 (approximately 35%) plus COLAs. However, if either of these workers start benefits earlier than their FRA, we'll reduce their monthly benefit.

Why we use a different formula

Before 1983, people whose primary job wasn't covered by Social Security had their Social Security benefits calculated as if they were long-term, low-wage workers. They had the advantage of receiving a Social Security benefit representing a higher percentage of their earnings. Also they had a pension from a job for which they didn't pay Social Security taxes. Congress passed the Windfall Elimination Provision to remove that advantage.

Under the provision, we reduce the 90% factor in our formula and phase it in for workers who reached age 62 or developed a disability between 1986 and 1989. For people who reach 62 or developed a disability in 1990 or later, we reduce the 90% factor to as little as 40%.

Some exceptions

The Windfall Elimination Provision doesn't apply if:

- You're a federal worker first hired after December 31, 1983.
- You're an employee of a non-profit organization who was exempt from Social Security coverage on December 31, 1983. This does not apply if the non-profit organization waived exemption and did pay Social Security taxes, but then the waiver was terminated prior to December 31, 1983.
- Your only pension is for railroad employment.

- The only work you performed for which you didn't pay Social Security taxes was before 1957.
- You have 30 or more years of substantial earnings under Social Security.

The Windfall Elimination Provision doesn't apply to survivors benefits. We may reduce spouses, widows, or widowers benefits because of another law. For more information, read *Government Pension Offset* (Publication No. 05-10007).

Social Security years of substantial earnings

If you have 30 or more years of substantial earnings, we don't reduce the standard 90% factor in our formula. See the first table that lists substantial earnings for each year.

The second table shows the percentage used to reduce the 90% factor depending on the number of years of substantial earnings. If you have 21 to 29 years of substantial earnings, we reduce the 90% factor to between 45% and 85%. To see the maximum amount we could reduce your benefit, visit www.ssa.gov/benefits/retirement/planner/wep.html.

A guarantee

The law protects you if you get a low pension. We won't reduce your Social Security benefit by more than half of your pension for earnings after 1956 on which you didn't pay Social Security taxes.

Contacting Social Security

The most convenient way to do business with us is to visit www.ssa.gov to get information and use our online services. There are several things you can do online: apply for benefits; get useful information; find publications; and get answers to frequently asked questions.

Or, you can call us toll-free at **1-800-772-1213** or at **1-800-325-0778** (TTY) if you're deaf or hard of hearing. We can answer your call from 8 a.m. to 7 p.m., weekdays. You can also use our automated services via telephone, 24 hours a day, so you do not need to speak with a representative. **Wait times to speak to a representative are typically shorter Wednesdays through Fridays or later in the day.**
