New Castle County sponsors HealthCheck360, a voluntary wellness program available to health plan employees and spouses. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric screening, which will include a blood test for HDL, LDL, Triglycerides, Total Cholesterol, Glucose, GGT, Cotinine, Creatinine, Albumin, ALP, Total Protein, ALT, AST, GSP, Bilirubin, Globulin, and BUN.

You are not required to complete the HRA survey, participate in the biometric screening or earn 700 points, however only those who do so will receive the incentive.

If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting HealthCheck360 at 1-866-511- 0360 or by 09/22/2026.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks and may also be used to offer you services through the wellness program, such as Condition Management services. You also are encouraged to share your results or concerns with your own doctor.
